

Lesson of **Title:** Point of View Drawings

Date: **Time:**

Artists: Bailey Drenik

Materials/Prep: an object (still life) to draw, paper, ruler, pen, and pencil

Introduction/Goals: Students will find a household object to draw in 6 different perspectives. The objects can be anything, even pets (but I highly recommend using still, unmoving items). Students will separate their paper into 6 boxes where they can draw their object.

Activity: Students will draw an object from different perspectives to better understand composition, value, and texture.

Vocabulary: Point of view, perspective

Closing: When students are finished they will come together to share their drawings.

Successes:

Challenges: This project can be very time consuming if you choose a very detailed object
