TESTIMONIALS:

Felicia Gallagher, parent: Thank you Josefa! You were a shining light of fun and inspiration for us in 2024 too! Looking forward to 2025! ❤️☀️

Holly Sherratt, Director, Modern & Contemporary Art, Heritage Auctions and professor for The Art History & Museum Studies program internship course at USF: I wanted to thank you again for your thoughtful comments about Zoe. She gave a wonderful presentation about Art Seed at the end of the semester and even shared some of her own artwork with the class. I know the internship helped build her confidence.

Mary Jane Dye: What I found memorable is the talk we had with Josefa on what makes us vulnerable. It made the work environment more comfortable for us and it made our relationship with Josefa grow into something great. I had an absolutely wonderful time in this internship and I will definitely be recommending this place to my fellow peers. What inspired me the most was definitely Josefa, the way her love for art started from so little and became something so great. Her work and what she has done to create such an amazing organization has definitely inspired me to never give up on what I am passionate about.

Lisa Burress: I love the energy here, the music is great and all of the people are awesome. Love the art !

Nadine Defrauoux: I love the exhibitions. The diversity and quality of art, the work is beautifully presented and engages me emotionally.

Lori: Thank you for dedicating so much time and effort to creating such a wonderful art experience for our little budding artists!

Maddy: Dear Josefa, you are so kind to give me a scholarship and a chance to attend here. I am forever grateful for the kind gesture you have done for me !

Gloria: Hi Josefa, thank you for the unforgettable experience of working with Artseed this summer. You've taught me so much about art and other things too. I always enjoyed our conversations and helping me set my boundaries.

Abigail: You are the best art teacher ! Thanks for teaching us how to work with new things I have never done before! I hope to come next year

Linh Ho: Hi Josefa ! You were great to work with and my experience at Artseed is unforgettable. I hope I can continue working with you after this summer

Arlan: Dear Josefa, I had a wonderful time with you. Thank you for teaching me !

Amity: Thank you for letting us have fun with our at and goof off (sometimes)

Prakriti: Dear Josefa, I really appreciate your willingness to continue with Artseed's Summer Intensive Program! I've really learned a lot, from both you and our new friends! Thank you for always trusting people, you've got a really special gift in you!

Linh Ho: Both the Summer Intensive and Exhibition made me realize how much ArtSeed likes to just push. We pushed deadlines, the artworks, all so that we can get the most out of everything. It's great how much you try to get out of us and how much everyone is pushed to make their best work.

Jack Herren: Artseed was and is my family of makers, creators, and gardeners of the mind and heart. I had the privilege of growing through the constant creation period, on days I volunteered. I have been chiseled, planed, painted and mended by Artseed.

Anna Maiorino: I really enjoyed seeing my work come to life like the T-shirts. I also loved meeting so many different creative people. I really loved our team. I felt very comfortable and productive, especially on the days Priscilla, Josefa and I worked together.

I think I learned a lot as a designer since this was my first work experience with design. It also gave me a lot to think of when deciding which career paths to explore when it comes to design.

I did not really know what to expect, I was open to whatever Artseed needed for me and it ended up being a very valuable and fun experience.

I shared with my class as well as gave T-shirts to friends and family.

I would love to do more animation!

Creating art with the veterans and other Artseed volunteers was a wonderful memory for me at Artseed.

We took our time to create drawings based on the prompt and then all shared. Everyone took turns discussing each other's work and it brought to light how amazing and different each interpretation was.

Jonathon Wright: I love walking through the hallway and seeing the art on my way to lunch. It makes my day.

Anna:

Congratulations on a great Art-a-Thon!! It was really beautiful to see everyone bonding through art and getting into all the unique tables. It also meant so much for me to see my T-shirt design all around. It was the first time I have designed something like that where people actually buy and wear it! I hope to rejoin the team eventually but I wanted to thank you for my meaningful time at ArtSeed so far. This has been my first design related job and I was able to learn so much in a very peaceful and understanding environment. I enjoyed the challenge of designing for ArtSeeds aesthetic which greatly differs from the aesthetics of my personal work.

I also wanted to share with you how much I truly admire what you do. I see all the hard work you pour into ArtSeed and how genuinely you believe and commit to its mission. Although I was working for ArtSeed I truly felt taken care of in the way ArtSeed cares for its members. You always encouraged my art and gave me a space to experiment. It was always so appreciated and I always felt so lucky not only because I was able to support a non-profit but because of the amazing work environment I got to be a part of.
